

Cardiac Marker Dialogues

Cardiac Biomarkers in Real Time – experiences and opportunities

cmdmeeting.org.uk

Thursday 26 - Friday 27 September 2024

Hilton Glasgow (William Street)

6th Cardiac Marker Dialogues Meeting

In 2010 UK NEQAS Cardiac Markers identified a requirement to initiate a dedicated meeting to educate and involve clinical scientists, biomedical scientists, clinicians and the diagnostics industry in the continuously evolving area of cardiac markers and their role in diagnosis and treatment. After five successful meetings, Cardiac Marker Dialogues returns with an exciting programme for 2024.

Timings | Thursday 11:30-20:00 hrs | Friday 08:30 – 15:00 hrs

Session 1: Single sample rule out

How is it working in emergency care? | [Rick Body](#) (Manchester, UK)

What does it mean to the cardiologist | [Nick Mills](#) (Edinburgh, UK)

What does it mean to the laboratory | [Paul Collinson](#) (London, UK)

Session 2: 0-1,0-2,0-3 Rapid diagnostic protocols in the real world

ESC - The Liverpool Experience | [Aleem Khand](#) (Liverpool, UK)

HighSTEACS | [Cass Li](#) (Edinburgh, UK)

Experience in the third world | [Allan Jaffe](#) (Rochester, USA)

Risk scores or robots | [Raphael Twerenbold](#) (Hamburg, Germany)

Session 3: And the answer is POC?

Does it do what it says on the tin – overview of system performance | [Kristin Aakre](#) (Bergen, Norway)

POC hs-cTnI - Clinical Evidence for Safe Early Rule Out | [Fred Apple](#) (Minneapolis, USA)

POC for the ED doc | [Martin Than](#) (New Zealand)

Session 4: Chronic disease management – natriuretic peptides

Big hearts – the case for sex specific reference ranges for natriuretic peptides

[Rob Christenson](#) (Baltimore, USA)

Machine learning in acute heart failure | [Ken Lee](#) (Edinburgh, UK)

Session 5: Chronic disease management – troponin

Troponin for chronic disease – role of fragments | [Saara Wittfooth](#) (Turku, Finland)

Troponin standardisation – necessity or mirage | [Rob Christenson](#) (Baltimore, USA)

Session 6: Cardiac biomarkers days of future passed

Personalised medicine and cardiac biomarkers – Voices from yesterday, today, and tomorrow

[Fred Apple](#) (USA)

The cardiac biomarker future? | Panel discussion

Plus breakouts, lots of panel discussion, moderated poster session and networking

Submit a poster

Abstract deadline: Monday 22 July 2024

Notification of outcome: Monday 19
August 2024

Registration is open

Early bird deadline

23:59 hrs Friday 26 August

Laboratory professionals | clinicians - £250

Trainees - £190

Commercial organisations - £350
